**PROVO CITY POWER
AGREEMENT FOR CUSTOMER REQUESTED WORK**

This agreement between Provo City Power and _____ ("Customer"),
Name
dated _____, is for work to be performed by Provo City Power at or
Date
near _____, Provo, Utah. The charge for work specified herein is
Location
\$ _____. Work not specified in this agreement and requested by Customer will need a separate
or revised agreement with new charges.

DESCRIPTION OF WORK TO BE COMPLETED:

Customer Responsibilities:

Customer will provide and install all distribution transformer pads, conduit, and duct required to Provo City Power specifications, as well as perform necessary trenching and backfilling.

Prior to any work by Provo City Power, Customer will:

1. Install property line and survey stakes to be maintained throughout project.
2. Establish final grade for routing of circuits, placement of transformer pads, vaults, junction boxes, and any other underground facilities required by Provo City Power.
3. Establish and install curb and gutter.

Customer will assume any additional costs due to changes in grade, property lines and/or surface improvements that require Provo City Power to alter the work specified in this agreement.

Payment:

In consideration of the work to be performed by Provo City Power, Customer agrees to pay the estimated costs in advance. There will be no refunds for the above specified work. Any non-Provo City facilities that required work or relocation will be the responsibility of the Customer.

Estimated cost indicated above is valid for 90 days from the date of this agreement.
