11
12 **AVAILABILITY**

13
14 To any Customer requiring a temporary power connection at any point on Company's interconnected
15 system where there are facilities of appropriate voltage and adequate capacity.
16

17 **APPLICATION**

18 This schedule is for service connection loop for providing residential and nonresidential temporary
19 120/240, 120/208 and/or 277/480 volt power service. This service is used for temporary use during
20 building construction of residential or nonresidential property and conditional use permits. Temporary
21 service is limited to a twelve (12) month period.

22 **CHARACTER OF SERVICE**

23 Service under this schedule shall be three-phase, 60 Hertz, alternating current at the Energy
24 Department's available standard primary voltages. All service required on the premises by the
25 customer will be supplied through one primary voltage meter. Standby or resale service is not
26 permitted under this schedule.
27

28 **MONTHLY RATE**

29
30 Electric service requirements will be supplied under the Energy Departments Residential Schedule No. 1
31 or General Service Schedule No. 2 accordingly.
