

On January 17th, 2017, the Municipal Council discussed and voted unanimously to change the net metering rates. The following is a brief summary of the rates that were changed and who it affects.

Existing Customers (on or prior to October 4, 2016):

Billing Rates for power used:

Customer Service Charge - \$ 8.570 per service connection

Energy Charge - Block 1 - 500 kWh \$ 0.0837 per kWh

Energy Charge - Block 2 - 501-1000 kWh \$ 0.1019 per kWh

Energy Charge - Block 3 - all additional kWh \$ 0.1209 per kWh

Rates (credits) for power generated per kWh placed on the grid: same as rates for power used up to \$0.1209.

Any credits remaining are wiped out to zero at the end of February of each year.

New Net Metering Customers (on or after October 5, 2016):

Billing Rates for power used:

Customer Service Charge - \$ 10.630 per service connection

Energy Charge - Block 1 - 500 kWh \$ 0.0797per kWh

Energy Charge - Block 2 - 501-1000 kWh \$ 0.1019 per kWh

Energy Charge - Block 3 - all additional kWh \$ 0.1209 per kWh

Rates (credits) for power generated per kWh placed on the grid: \$0.06742

Any credits remaining are wiped out to zero at the end of February of each year.

The Net Metering rates went into effect beginning March 31, 2017 and are always subject to change.
