

NET METERING ACKNOWLEDGMENT FOR CUSTOMERS MOVING INTO EXISTING NET METERED HOMES

This Net Metering Acknowledgment form is a requirement for new customers that move into homes that have existing rooftop solar (net-metering). Please review each item below and upon completion, please return this and the signed Net Metering License Agreement to Provo 3-1-1 Customer Service located at:

Provo City Hall
445 West Center Street
Provo, Utah 84601

- I have watched both Provo Power Net Metering videos (provopower.org/net-metering/)
 - <https://youtu.be/JAgQtv7AYNw>
 - https://youtu.be/7xap_VzgzUU
- I have watched the SharedSolar Community Solar video (provopower.org/net-metering/)
 - <https://youtu.be/BWzvxDWYonU>
- I understand that even though I will be generating solar power, I will still receive a monthly bill.
- I understand that net metering (solar panels) is not designed to make money.
- I understand that excess credits will be accumulated throughout the year and if not used, will be reset to zero in February every year.
- I understand that the utility rates can change at any time.
- I understand that my utility account cannot have more than one "special" rate (Net Meter/Time-of-Use/SharedSolar/Etc.)

If you have any questions about Solar (Net Metering), feel free to contact Provo Power's office by calling 801-852-6852.

Name _____ Signature _____
Address _____ Date _____
