

**PROVO CITY ENERGY DEPARTMENT
ELECTRIC SERVICE SCHEDULE**

**PRIVATE OUTDOOR SECURITY LIGHTING
NO. 12**

AVAILABILITY

This schedule is available at any point on the Energy Department electric system where facilities of adequate capacity and standard lighting voltage levels are available.

APPLICATION

This schedule is for electric service required for automatically controlled dusk-to-dawn security lighting of privately-owned roads or streets, and privately or publicly owned yards, driveways, parking lots, walkways, parks, recreation areas, buildings, and similar areas. All lighting is subject to approval by Provo City Power.

CHARACTER OF SERVICE

Service under this schedule shall be single-phase, 60 Hertz, alternating current at the Energy Department’s available standard distribution voltage. Standby or resale service is not permitted.

MONTHLY RATE

The unit charge includes installation, maintenance, and energy costs for a unit on an existing or new pole without guys. Where more than one pole and more than 200 feet of extension are required, an additional monthly charge of 1.5% of the estimated additional cost will apply. Poles can be paid up front or billed over a twelve (12) month period.

LIGHT FIXTURE TYPE	WATTS	RATE PER MONTH
High Pressure Sodium (HPS)	150	\$17.00
	250	\$20.50
Light Emitting Diode (LED)	65	\$26.65
Energy Only (No Maintenance included)	PVT LT	\$3.70

35’ Wood Pole: \$1385.00 up-front cost or \$118.57 for 12 monthly billings
 25’ Steel Pole: \$2055.00 up-front cost or \$175.93 for 12 monthly billings

SPECIFICATIONS AND SERVICE

Each lamp will be mounted on an existing pole or on a pole with a height of approximately 25 feet or greater, with a mast arm bracket not exceeding 4 feet in length. Service includes energy supplied from the Energy Department’s electrical circuits, maintenance of lamp and glassware renewals. The Energy Department will replace all burned-out lamps during regular working hours as soon as practicable following notification by the customer that such maintenance is necessary. Lamps should burn each night from dusk to dawn.

41 (RATE NO. 12 CONTINUED)

42

43 The Energy Department reserves the right to enter the customer's premises, without
44 being subject to trespass, at all reasonable times for the purpose of inspecting,
45 maintaining, and installing or removing equipment or facilities. The customer may be
46 requested to reimburse the Energy Department for the cost of any maintenance work
47 required due to vandalism.

48

49 **LIMITATION OF SERVICE**

50 Lights to be served under this schedule shall be located, in the opinion of the Energy
51 Department, where they are easily and economically accessible to the equipment and
52 personnel required for construction and maintenance. Steel poles may only be located
53 where they are easily accessible to an Energy Department bucket truck.

54

55 Lighting fixtures shall be installed on Energy Department-owned poles only. The location
56 of lighting fixtures shall be determined by mutual agreement and shall not be in
57 locations which create a public nuisance. Substantial complaints registered by other
58 customers affected by the light(s) may, at the Energy Department's discretion, be
59 grounds for removal or relocation of said light(s).

60

61 The Energy Department, while always exercising reasonable diligence to furnish service,
62 does not guarantee continuous lighting and will not be liable for damages resulting from
63 any interruption, deficiency, or failure of service. The Energy Department also reserves
64 the right to interrupt service at any time for necessary repairs to lines and equipment or
65 for system protection. The customer will assume responsibility for keeping trees, shrubs
66 and other plants clear of the lighting fixture and the wires serving the lighting fixture.

67

68 If the Energy Department is required to remove or replace existing high-pressure
69 sodium vapor lighting fixtures under this schedule, thereby forcing premature
70 retirement of the existing fixture, the customer will pay the Energy Department an
71 amount equal to the depreciated value of all equipment removed or replaced, as well as
72 the cost of removal less any salvage value.

73

74 **TAX ADJUSTMENTS**

75 The amount computed at the above monthly rate shall be subject to taxes, assessments
76 and surcharges imposed by Provo City or any governmental authority authorized to levy
77 said taxes, assessments, or surcharges.

78

79 **TERMS AND CONDITIONS**

80 Service under this schedule will be in accordance with the Energy Department's electric
81 service standards and policies and terms and conditions set forth by the Department's
82 standard application requirements and Provo City Ordinances, including any future
83 additions or amendments.
