

**PROVO CITY ENERGY DEPARTMENT  
ELECTRIC SERVICE SCHEDULE**

**PRIVATE OUTDOOR SECURITY LIGHTING  
\*\*\*CLOSED RATE\*\*\*  
NO. 7**

**AVAILABILITY**

This schedule is available at any point on the Energy Department electric system where facilities of adequate capacity and standard lighting voltage levels are available.

**APPLICATION**

This schedule is for electric service required for automatically controlled dusk-to-dawn security lighting of privately-owned roads or streets, and privately or publicly owned yards, driveways, parking lots, walkways, parks, recreation areas, buildings and similar areas.

**CHARACTER OF SERVICE**

Service under this schedule shall be single-phase, 60 Hertz, alternating current at the Energy Department’s available standard distribution voltage. Standby or resale service is not permitted.

**MONTHLY RATE**

The unit charge includes installation, maintenance, and energy costs for a unit on an existing or a new pole without guys. Where more than one pole and more than 200 feet of extension are 53 required, an additional monthly charge of 1.5% of the estimated additional cost will apply.

LIGHT FIXTURE TYPE	WATTS	STEEL POLE	WOOD POLE	NO POLE
Mercury Vapor Lamps*	125	n/a	n/a	\$9.61
	175	\$16.83	\$13.60	\$11.20
	250	\$20.69	\$16.83	n/a
	400	\$28.72	\$24.85	n/a
	750	n/a	n/a	\$24.83
High Pressure Sodium Vapor Lamps	70	\$16.83	\$12.97	\$6.06
	150	\$20.69	\$16.83	\$9.82

\*Mercury Vapor Lamps are a closed rate schedule. They are no longer available for new installations or replacements.

**SPECIFICATIONS AND SERVICE**

Each lamp will be mounted on an existing pole or on a pole with a height of approximately feet or greater, with a mast arm bracket not exceeding 4 feet in length.

36 (RATE NO. 7 CONTINUED)

37

38 Service includes energy supplied from the Energy Department's electrical circuits,  
39 maintenance and lamp and glassware renewals. The Energy Department will replace all  
40 burned-out lamps during regular working hours as soon as practicable following  
41 notification by the customer that such maintenance is necessary. Lamps should burn  
42 each night from dusk to dawn.

43

44 The Energy Department reserves the right to enter the customer's premises, without  
45 being subject to trespass, at all reasonable times for the purpose of inspecting,  
46 maintaining, and installing or removing equipment or facilities. The customer may be  
47 requested to reimburse the Energy Department for the cost of any maintenance work  
48 required due to vandalism.

49

50 **LIMITATION OF SERVICE**

51 Lights to be served under this schedule shall be located, in the opinion of the Energy  
52 Department, where they are easily and economically accessible to the equipment and  
53 personnel required for construction and maintenance. Steel poles may only be located  
54 where they are easily accessible to an Energy Department bucket truck.

55

56 Lighting fixtures shall be installed on Energy Department-owned poles only. The location  
57 of lighting fixtures shall be determined by mutual agreement and shall not be in  
58 locations which create a public nuisance. Substantial complaints registered by other  
59 customers affected by the light(s) may, at the Energy Department's discretion, be  
60 grounds for removal or relocation of said light(s).

61

62 The Energy Department, while always exercising reasonable diligence to furnish service,  
63 does not guarantee continuous lighting and will not be liable for damages resulting from  
64 any interruption, deficiency or failure of service. The Energy Department also reserves  
65 the right to interrupt service at any time for necessary repairs to lines and equipment or  
66 for system protection. The customer will assume responsibility for keeping trees, shrubs,  
67 and other plants clear of the lighting fixture and the wires serving the lighting fixture.

68

69 If the Energy Department is required to remove or replace existing high pressure sodium  
70 vapor lighting fixtures under this schedule, thereby forcing premature retirement of the  
71 existing fixture, the customer will pay the Energy Department an amount equal to the  
72 depreciated value of all equipment removed from service and replaced, as well as the  
73 cost of removal less any salvage value.

74

75 **TAX ADJUSTMENTS**

76 The amount computed at the above monthly rate shall be subject to taxes, assessments  
77 and surcharges imposed by Provo City or any governmental authority authorized to levy  
78 said taxes, assessments, or surcharges.

79 (RATE NO. 07 CONTINUED)

80

81 **TERMS AND CONDITIONS**

82 Service under this schedule will be in accordance with the Energy Department's electric  
83 service standards and policies and terms and conditions set forth by the Department's  
84 standard application requirements and Provo City Ordinances, including any future  
85 additions or amendments.
