

**PROVO CITY ENERGY DEPARTMENT
ELECTRIC SERVICE SCHEDULE**

**GENERAL SERVICE – HIGH VOLTAGE
(COMMERCIAL)
NO. 6**

AVAILABILITY

This schedule is available at any point on the Energy Department electric system where facilities of adequate capacity and standard high voltage levels are available.

APPLICATION

To qualify for service under this rate schedule, a customer must (1) have immediate access (proximity) to the Energy Department’s high voltage electric system; (2) accept delivery at Provo’s standard high voltage levels; (3) accept delivery at a substation that is dedicated solely to the customer’s use and (4) own the substation at the point of delivery.

CHARACTER OF SERVICE

This schedule is for alternating current, three-phase service supplied at approximately 46,000 volts or greater. Standby or resale service is not permitted.

MONTHLY RATE

The monthly billing for electric service, excluding charges for other utility services and taxes, shall be the sum of the following charges:

Customer Service Charge:	\$237.02 per Service Connection
Demand Charge:	\$15.39 per kW
Energy Charge:	\$0.0383 per kWh

DEMAND METERING

The kW billing demand shall be the highest measured 15-minute kW for the billing period, adjusted for power factor as specified in this schedule.

POWER FACTOR

The Energy Department may, at its option, install metering equipment to allow the utility to determine the reactive components of power utilized by the customer. The customer’s utilization of equipment shall not result in a power factor at the point of delivery of less than 95% lagging at the time of maximum demand. Should the power factor be less than 95% lagging during any month, the Energy Department may adjust

(RATE NO. 4 CONTINUED)

44
45 the readings taken to determine the billed demand by multiplying the kW obtained
46 through such readings by 95% and by dividing the result by the power factor established
47 at the time of maximum demand during the current month.

48 Such adjusted readings shall be used in determining the billing demand.

49
50 The Energy Department reserves the right, at its option, to utilize kVA meters, kVAR
51 meters, and / or other appropriate meters in those metering installations where the
52 customer's power factor is believed to be unsatisfactory on a continuous basis according
53 to the Energy Department's standards. If such meters are installed, the billing demand in
54 kW or kVA may be computed from such instruments.

55

56 **MINIMUM CHARGE**

57 The minimum monthly charge shall be the Customer Charge listed above under the
58 monthly rate section.

59

60 **TAX ADJUSTMENTS**

61 The amount computed at the above monthly rate shall be subject to taxes, assessments
62 and surcharges imposed by Provo City or any governmental authority authorized to levy
63 said taxes, assessments, or surcharges.

64

65 **TERMS AND CONDITIONS**

66 Service under this schedule will be in accordance with the Energy Department's electric
67 service standards and policies and terms and conditions set forth by the Department's
68 standard application requirements and Provo City Ordinances, including any future
69 additions or amendments.
